CASH MANAGEMENT

It's Your Savings

Simple and straightforward cash management for our customers

You have worked hard to accumulate your savings and you deserve the opportunity to maximise your interest rate returns.

Many people believe it is not possible to make a real difference to the returns they receive or that it is not worth making the effort. In reality it is worth making the effort because you can make a significant difference!

Our new Cash Management Service will help you to maximise your returns and your level of FSCS protection. We will provide you with a bespoke service to help you manage your savings together with a secure on-line Management System to help you keep track and control.

Do not underestimate the value you can receive from your savings

Our Approach

Most people already have savings and many believe their savings provider (the bank or building society) will help them get the best possible returns. This is fundamentally NOT TRUE!

Savings must be pro-actively managed to get the best interest rate return and level of FSCS protection. This can only be achieved by the right product solutions being identified quickly, and at the right time, to simplify the process.

Our service will do this by:

Researching and analysing all FSCS protected savings accounts registered in the UK (excluding overseas national banks) to identify the best rates of interest.

Building the best portfolio of deposits that meet your requirements for cash, whilst maximising your interest rate returns and FSCS protection.

Monitoring and reviewing your savings portfolio every 12 months to make sure it maintains its performance.

Providing a secure online management system to help you keep track of your accounts and account maturity dates.

Take FULL control of your savings and make your money work

Principles of Effective Cash Management

You must follow our 6 principles if you wish to maximise the value of your savings.

Protect Your Capital

Banks and building societies can go bust and savers can lose money. Do not leave this to chance. Protect your savings with the FSCS.

Do Not be Over-Loyal

No single bank or building society can help you to maximise the value of your savings. Use the whole of market to make your money work harder.

Have a Plan

Make sure you structure your savings to meet your financial needs, whilst maximising your interest rate returns.

Save for the Longer Term

Determine your requirements for your cash and build the best portfolio to meet them.

Make a Financial Decision Every Year

Interest rates change and become dormant. You need to review your savings every year to maximise your returns.

Research the Entire Market

Stay within the FSCS limits to spread your savings, to achieve the best returns and to maximise the protection you receive.

Be Pro-Active and have a plan to maximise your savings

Because It Makes Sense ...

**Managing your savings makes absolute sense.
Whether you are:**

- An individual
- A Trustee
- A Charity
- A Company
- A SIPP or SSAS
- A Power of Attorney or
- A Court Deputy

Managing your own money is one thing as you are free to make your own decisions, but managing money on behalf of another carries additional obligations.

Professional, regulatory, legal and moral obligations apply when you are managing cash on behalf of another. The obligation to maximise the interest rate returns and the level of FSCS protection becomes even more necessary.

Protect yourself. Meet your client's, or loved one's, expectations by manage their money effectively.

**100% guaranteed protection
on all interest rates**

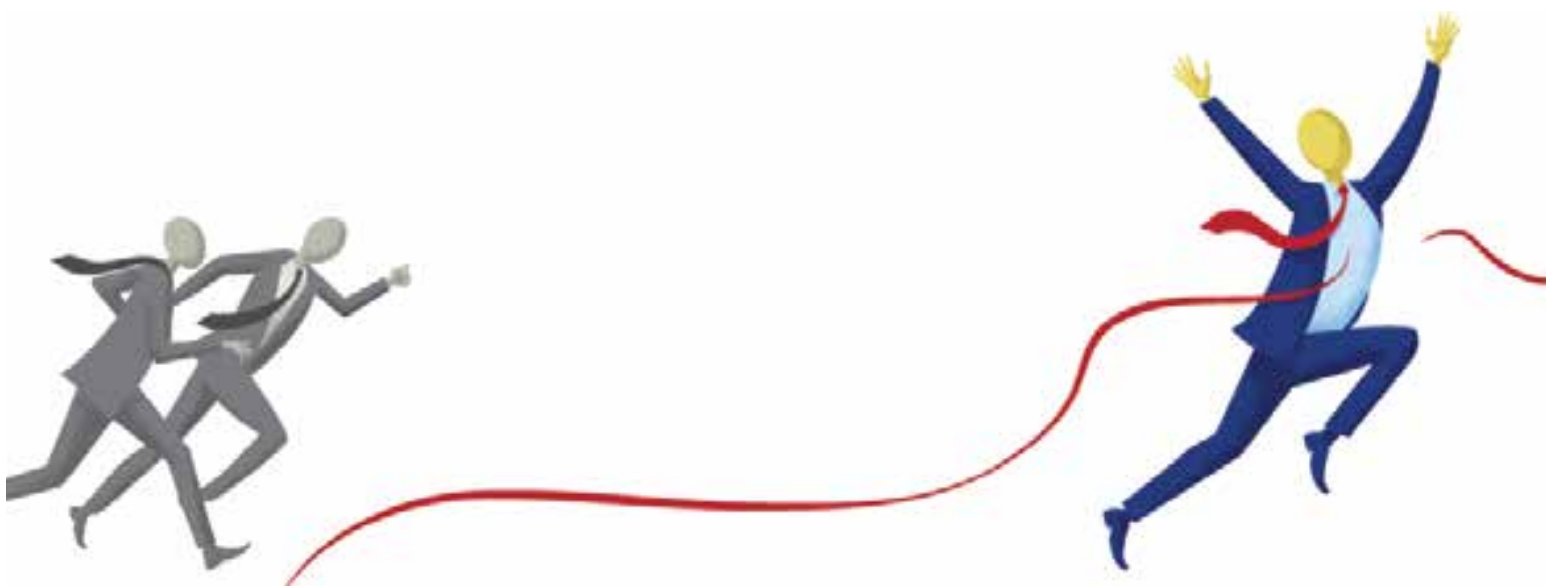

In Your Hands

We know how important your savings are to you.

Whether you are an individual or a professional, our service will help you to meet your personal and professional cash management objectives.

Whatever you require from your savings, you should be maximising the returns that are available.

- **Save time and make money!**
- **All accounts are owned 100% by you!**
- **You are in complete control!**

You could be losing
£ hundreds if not £ thousands
on your savings

Next Steps

Managing your savings is much easier than you could ever imagine with our service and expertise.

- Maximise your Returns
- Maximise your Protection
- Maximise your Control
- Access the Whole of Market
- Complete Peace of Mind
